

FIBERLIGN® CLAS (Center-Lock Aerial Slack) Storage

Weight: 0.00kg

Dimensions: 0.00cm x 0.00cm x 0.00cm

Description

The **FIBERLIGN Center-Lock Aerial Slack (CLAS) Storage System** provides In-Span storage for ADSS cables up to 1" (25 mm) in diameter. It is designed to maximize ease of installation, accept a wide range of cable sizes, and allow for cable only or butt splice applications.

Features

- Centerlock hinge design
 - Folds and separates at the hinge for efficient storage
- Heavy duty UV resistant strap fasteners - no metal fasteners
 - Straps cinch quickly and secure to the main cable, eliminating the need for tools and metal fasteners
- Safe with all dielectric materials
- Dual purpose apertures
- Expansion tabs
 - Allow 20" (508 mm) maximum loop diameter storage
- Abrasion protector or Uni-Group Cable Guide (UCG)
