

COYOTE® Splice Trays

Weight: 0.00kg

Dimensions: 0.00cm x 0.00cm x 0.00cm

Description

COYOTE® Splice Trays are user friendly for all applications. Preformed has five types of standard splice trays, four for single fiber splices and one for mass fiber splices.

Features

- Trays are injection-molded with a hinged, clear plastic cover for maximum fiber protection
- Clear plastic cover allows for visible inspection of the fibers
- A series of tabs along the tray perimeter are easily removed to simplify routing of the fiber.
- Available for single and mass fiber
