

Open Wire Splice

Weight: 0.00kg**Dimensions:** 0.00cm x 0.00cm x 0.00cm

Description

PREFORMED Open Wire Splices are used for mid-span splicing during new construction and for repair of abraded or severed wire at tie points.

Features

- Wrap on easily by hand without a need for wire cutting
- Designed to permanently restore the full mechanical strength and conductivity of the conductor to which they are applied
