

## FIBERLIGN™ PREFORMED GUY GRIP DEAD END FOR FIGURE 8 CABLE OR STRAND

The FIBERLIGN™ Preformed Guy Grip Dead End is designed for terminating figure 8 cable or lashed cable with strand, used by telephone companies or electric power utilities. Made from galvanized steel wire to reduce the possibility of electro-galvanic corrosion with steel strand, this product provides a superior method to secure strand through a constant radial gripping force on the strand.

FIBERLIGN™ PREFORMED GUY GRIP DEAD END FOR FIGURE 8 CABLE OR STRAND
