

Spacer Mat

Weight: 0.00kg**Dimensions:** 0.00cm x 0.00cm x 0.00cm

Description

The **PREFORMED Spacer Mat** is an open-cell, polyurethane foam material ideal for splice closures using solid-cast polyurethane resin as an encapsulant.

Features

- Can be used to wipe excess grease off cable pairs prior to splicing filled cable.
- Used to maintain at least 1/4" of resin around the splice.
