

Cable Shaper Tool

Weight: 0.00kg

Dimensions: 0.00cm x 0.00cm x 0.00cm

Description

The **PREFORMED™ Cable Shaper** is designed for cable shaping applications encountered in all splicing installations. The unit is designed to be effectively used in restricted areas to assure proper cable shaping. This tool is ideal for use with all PREFORMED re-enterable closures as well as many other applications requiring shaped cable.
