

Cable Demarcation Enclosure

Weight: 0.00kg

Dimensions: 0.00cm x 0.00cm x 0.00cm

Description

The **Cable Demarcation Enclosure** is molded from a rugged impact-resistant thermoplastic resin that offers superior protection and security. We've included UV inhibitors that protect the enclosure from sun degradation and color shifts, plus the entrance and exit grommets keep the enclosure free from insects. The large interior is ideal for storing excess cable and accommodates common traps, filters, splitters, and amplifiers.
